

Changes to 3 Minute Step Test Reporting

The 3 Minute Step Test comment was previously included under the Physiological Test Responses. These have now been split out so that you can select them independently.

For all new reports you will need to select the 3 Minute Step Test separately if you want it to be included.

Recommendations	<input type="checkbox"/>	Postural Tolerances	<input type="checkbox"/> <input checked="" type="checkbox"/>
Reports Reviewed	<input type="checkbox"/>	Other Comments	<input type="checkbox"/> <input checked="" type="checkbox"/>
Assessment Methodology	<input type="checkbox"/>	Physiological Test Responses	<input type="checkbox"/> <input checked="" type="checkbox"/>
Mechanism of Injury	<input type="checkbox"/>	Integration Graph	<input type="checkbox"/> <input checked="" type="checkbox"/>
Grip Strength	<input type="checkbox"/>		
Evaluator Signature	<input type="checkbox"/>		
Pre-Screening	<input type="checkbox"/>		
Endurance Lift	<input type="checkbox"/>		
Safe Maximal Carry	<input type="checkbox"/>		
Summary of Tasks Tested	<input type="checkbox"/>		
Safe Maximum Lift	<input type="checkbox"/>		
Safe Maximum Lift Table	<input type="checkbox"/>		
3 Minute Step Test	<input type="checkbox"/>		
Dynamic Activity	<input type="checkbox"/>		
Specific Functional Task	<input type="checkbox"/>		
Manual Handling Factors	<input type="checkbox"/>		
Grip Strength Graph	<input type="checkbox"/>		

For new reports these components need to be selected independently

For existing reports where the Physiological Test Responses component has been selected the 3 Minute Step Test results will be automatically inserted below so there will be no change in the final report.

Select All

Report Components	Select	Selected Components	New Page
